Natural stone for spaces and projects.

Natural stone from workshops in Afyon and Denizli, Turkey

[NIVASTONE.COM](https://www.nivastone.com)

About Nivastone

Nivastone is a natural stone export brand based in Konya, Turkey. Working with independent workshops in Afyon and Denizli, we supply processed marble, travertine and onyx products to trade buyers, architects and private clients. We do not run our own factory; instead, for each order we select the right stone and the right workshop, follow production on site, and manage packing and export from start to finish as your single point of contact. Every piece of natural stone is different, so we send production photos for your approval before anything is packed.

HOW WE WORK

- 01

Selection
Products are chosen from the catalogues of independent workshops and matched to your size, finish and quantity.
-
- 02

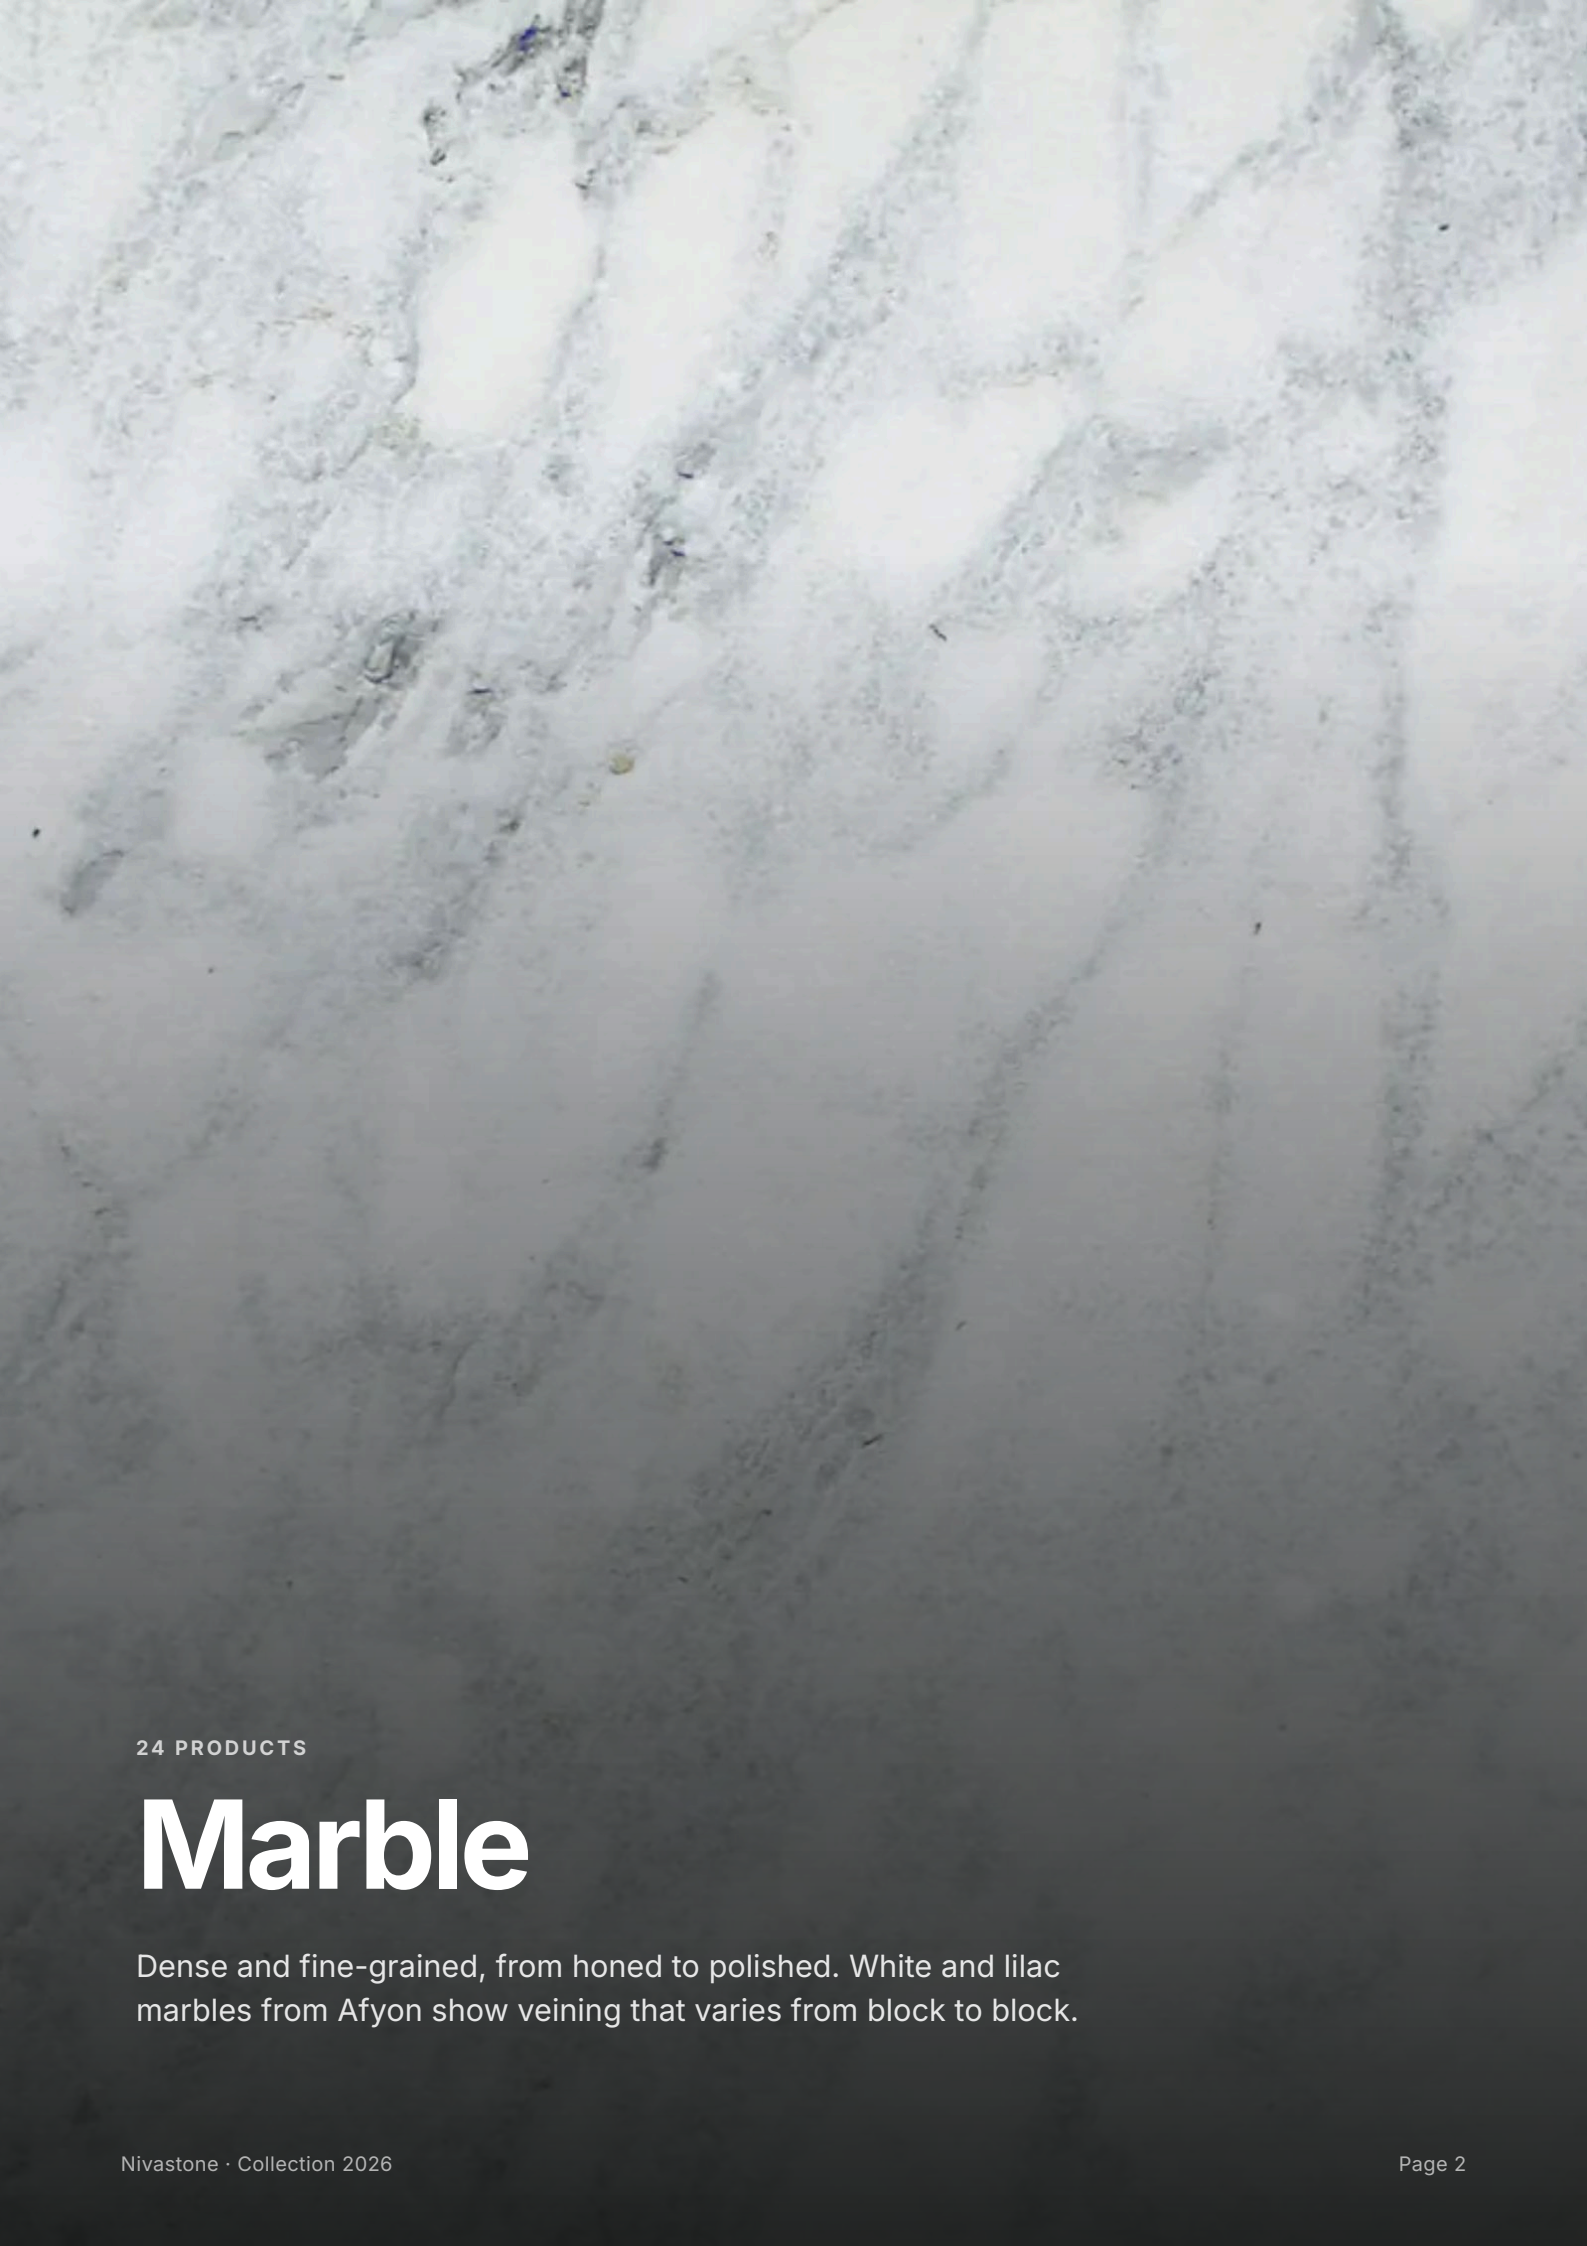

Approval
Production is photographed for your approval before anything is packed.
-
- 03

Consolidation
Items from different workshops are packed and shipped together, with one set of documents.
-
